

**EDUCATIONAL FIELD TRIP ORGANIZED BY GEOGRAPHY DEPARTMENT,**  
**VIC**

Department of Geography organised an Excursion to Harsil in Uttarakhand as part fulfilment of Semester 5 GEOA syllabus for GEO-A-CC-5-P-Research Methodology and Fieldwork Lab which was coordinated by Smt. Pubali Ghosh and Dr. Saswati Nayek from 27/11/2023 to 05/12/2023. Sri Nishikanto Mondal, non –teaching staff of the department assisted during the trip. Our destination was selected to study and analyse the socio- economic and physico-cultural spectrum of a small village in the natural lap of Western Himalayas, namely Bagori village, Harsil, Uttarakhand. Twenty-seven students of Semester 5 Honours participated in the excursion.

The Excursion was a successful one that fascinated us with the wonderful topography and the breath-taking view of the peaks of Western Himalayas and the virgin valley as curved by the river Bhagirathi as well as enhanced our knowledge about the socio economic status and physico cultural scenario of the study area.

**PRISMATIC COMPASS SURVEY DONE BY THE STUDENTS UNDER  
SUPERVISION OF DR. SASWATI NAYAK**
