Participation of Students in Add-On Courses

Department of Mathematics

The Department of Mathematics continuously encourages the students to prepare themselves for their future. Conversability, Skill development, technical awareness and presentability are a few areas where a student should be sound enough to prove themselves in their workplace. The students participated in Add-On courses to be future prepared. Students participated in the course entitled "Data Analysis for Decision Making" and "Generative AI Bootcamp and Cloud Fundamentals" recently.

Date	Title of Add on Course	Photograph
09.11.2023 to 10.11.2023	Generative AI Bootcamp and Cloud Fundamentals	
21.11.2023 to 30.12.2023	Data Analysis for Decision Making
