

Educational Trip to VECC, Kolkata organized by the Dept. of Physics on 12.12.2024

On 12th of December 2024, our college organized an educational trip to the Variable Energy Cyclotron Centre (VECC) in Kolkata. As students of B.Sc. Physics(H), they were excited to explore this renowned research institution.

During their visit, they were introduced to the K500 Superconducting Cyclotron, room temperature K130 Cyclotron, and the RIB LINAC. Students gained valuable insights into the use of accelerators in nuclear physics, materials science, radiation therapy etc. They were also informed about the medical cyclotron. The scientists and engineers at VECC shared their expertise with the students, making the experience both informative and interactive.

The trip was a huge success, and the students returned with a newfound appreciation for the advancements in science and technology. This experience sparked their interest in pursuing a career in research and development.

9 Students of Sem I, III and V Hons have attended this educational trip who were accompanied by 2 faculties of the dept.
