

Educational Tour to Sunderban

The students and teachers of the Department of Political Science spent two days touring the creeks and inlets of Sunderban as part of their Educational Tour on 24-25th February, 2025. The tour had three segments. The first segment was a visit to Ramchandraxhali Gram Panchayat. The tour started on a positive note with a very fruitful interaction between our students and the Pradhan and other members. The second segment comprised of Jhumur dance - a heritage of the Sunderbans - enjoyed very much by the students. They also joyously joined the professional dancers and created a magical musical evening. Final segment was a visit to Sandeshkhali and Sudhanyakhali Tiger Projects. The students were further enriched by the stories and experiences of our guide. The students learnt about the eco-system of Sunderban, the daily struggle for survival of not only the humans, but all animals, plants and other creatures living here. Overall, it was a very educative and enjoyable excursion.
