1) National Webinar on "Career Advancement for Physics Undergraduate Students" Organized by the Department of Physics on 4th July 2021

The dilemma of students in the final year of their Undergraduate course in Physics is – “Whether to continue studying Physics in the next level or choose a different career option” Keeping this in mind we decided to organize a *National Webinar on Career Advancement for Physics Undergraduate students on 4th July 2021*. The aim of this Webinar was to give an exposure to the Undergraduate students in different opportunities apart from opting for M.Sc in Physics.

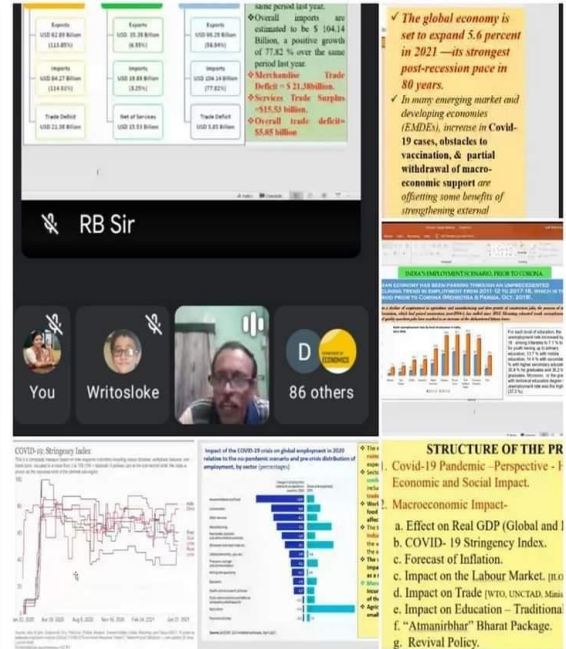

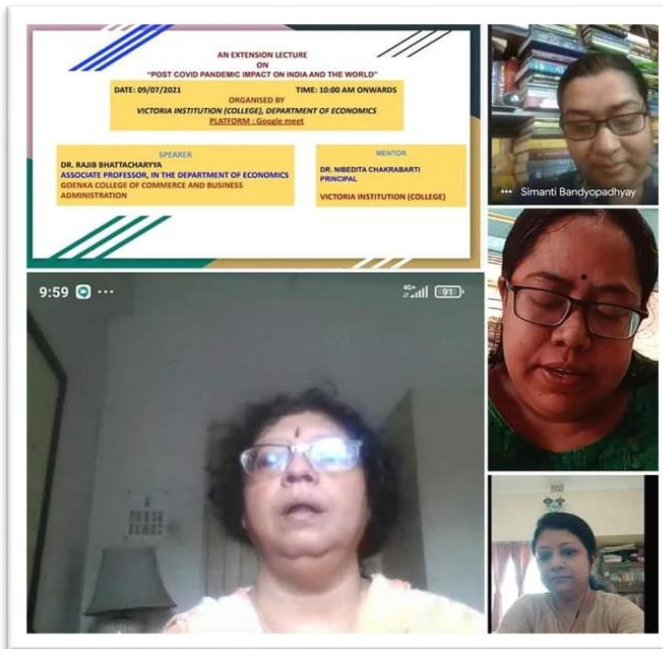

The webinar comprised of two sessions. Ms. Saumali Dutta, State RF Optimisation Manager, Reliance Jio Infocom Limited was the resource person for the first session. She gave a presentation on CELLULAR COMMUNICATION – An evolving technology and its career prospects. Her lecture gave the student participants glimpses into the world of Cellular Communication and career opportunities there and we hope that at least some of our students will consider taking up a career in this field. The resource person for the second session was Dr. Sajal Ghosh, Associate Professor, Management Development Institute, Gurgaon. His presentation was entitled "The road ahead for undergraduate Physics students : An Interactive session" . Dr. Ghosh shared his personal experience about opting for a career in a different field and guided the participants about choosing a career in the different domains like economics , data science, finance management which require a sound knowledge of Physics. The presentation was very informative and the interactive session that followed was extremely interesting .

The Webinar was well attended by approximately 50 participants who are UG students from different Colleges, Universities and Institutions throughout India.

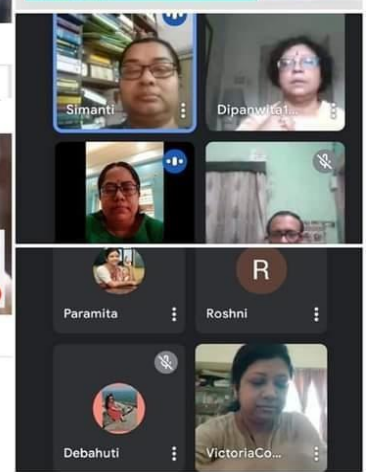

2) Report on “Post Covid Pandemic Impact on India and The World” organized by Department of Economics, Victoria Institution (College) on July 9, 2021

Speaker was Dr. Rajib Bhattacharyya, Associate Professor, Dept of Economics, Goenka College of Commerce and Business Administration. The deliberation was very informative and our students were enriched by the lecture. The faculty members enjoyed the interactive session as well.

Under the guidance of Smt. Sananda Laha, the students of Semester 5 honours, participated in a talk cum presentation on the topic of Women's Writing (from CC11) where they tried to examine different aspects of Women's Writing by deliberating on different texts and authors other than the one prescribed in their syllabus. It was a group presentation, where all the students contributed in their own way.

Above mentioned activity was conducted internally by the Department, from areas pertaining to the syllabus of the respective semesters, with a view to engage the students in substantial activities that will in turn enrich their understanding of the topic and extend the horizon of their knowledge. The online mode though initially a hindrance, turned out to be helpful in a way as the students acquired some technical knowledge while preparing for their Online PowerPoint presentation. Number of participants – 32

6) A Report on the Online Workshop on Undergraduate Physics Experiments

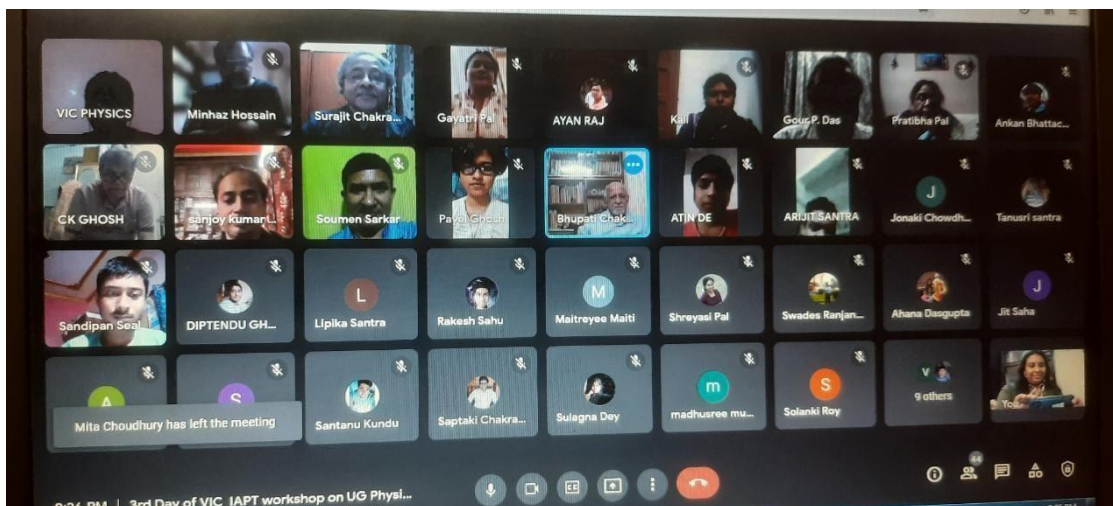

organized by the Department of Physics in Collaboration with IAPT, RC 15

27.11.2021, 28.11.2021 and 02.12.2021

Educational system has suffered enormously during the pandemic. Practical based subjects have suffered the most as experiments can hardly be done in online mode. In order to partly compensate this loss, a three-day Online Workshop On Undergraduate Physics Experiments was organized by the Department of Physics, Victoria Institution (College), in Collaboration with the Indian Association of Physics Teachers, Regional Council 15 (IAPT, RC 15). The workshop was held on 27th, 28th Nov & 2nd Dec, 2021. Resource persons delivered online talks on several experiments at the undergraduate 1st and 2nd year levels with demonstrations and videos. The experiments were so designed that the students could perform them using simple and easily accessible equipments even at their homes. This workshop was dedicated to the memory of Late Prof. D. P. Khandelwal, Founder of IAPT. Resource Persons were the eminent members of IAPT.

A small kit which contained lenses, measuring cylinder, bar magnets along with a magnetic needle, one digital thermometer, one multi turn pot, few resistances, capacitances etc. were provided by IAPT, RC15 to the 1st and 3rd Semester. Physics Hons. students of Victoria Institution (College) so that they could carry out most of these experiments at home.

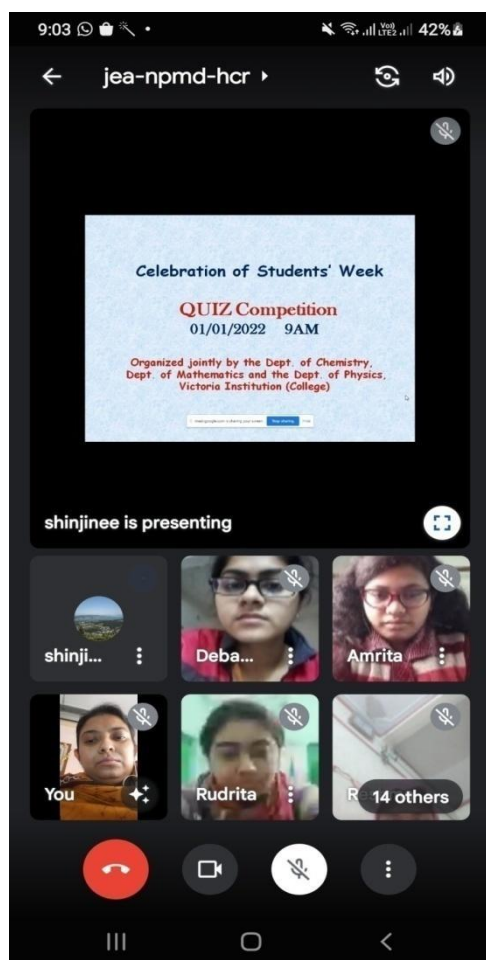

About 50 students participated in this workshop from various colleges of West Bengal as well as from other states of India. Most of them responded positively and are showing interest in carrying out the experiments at home. A post workshop discussion WhatsApp group has been created where the students are posting their results and communicating with the resource persons. It is very heartening to find students performing the experiments from home even after a month of the formal presentations.

24) Webinar on "Technology Enhanced Learning (TEL): an Innovative Approach"

The Library and Department of Physics, VIC, 7th January, 2022

The Library and Department of Physics of Victoria Institution (College) jointly organized a Webinar on 7th January, 2022 entitled "Technology Enhanced Learning (TEL): an innovative approach" as part of the celebration of Students' Week.

Dr. Nibedita Chakrabarti, Principal of Victoria Institution (College) stressed on the importance of online learning in the pandemic situation in her inaugural speech. To discuss the matter she also mentioned the pivotal role Library and Information Centre can play in the digital education.

The resource person of this webinar Dr. Tanmay De Sarkar, Assistant Librarian, University of Calcutta started his speech briefly explaining what is technology enhanced learning and its implications in the pandemic situation. He enriched the discussion showing different online sources and search techniques to collect the course curriculum based resources especially for undergraduate students which would be also beneficial for faculty members. He also mentioned about SWAYAM courses and virtual laboratory. He concluded his speech that enhancement of online learning skill will also enhance the self-learning. About 90 students of Victoria Institution (College) participated in this webinar. It was appreciated by one and all.

25) Workshop on Digital INGA@VECC: The Milestones Achieved & The Miles Ahead
organized by Department of Physics & IQAC, VIC in collaboration with
UGC-DAE Consortium for Scientific Research, Kolkata Centre
10th & 11th of March, 2022 (Online)

The recent campaign of the Indian National Gamma Array (INGA), setup at the Room Temperature Cyclotron (RTC) in VECC, Kolkata, was implemented through more than 30 experiments carried out in different phases of the programme. The facility was sustained by resources pooled from VECC, SINP, and the Kolkata Centre of UGC-DAE CSR. The User Groups included those from Institutions, Universities and Colleges across the country such as Victoria Institution (College), Visva Bharati, TIFR, BARC, IIT-KGP, IEST, University of Delhi, University of Mumbai, CEBS-UM, SINP, VECC, UGC-DAE CSR and others. Results from some of these efforts have already been published in international peer reviewed journals of repute while some are currently in submission. Data analysis is in progress for some of the projects. This two-day online workshop was aimed at reviewing the physics results of significance, accomplished in the campaign, as well as at addressing the issues that might be deterring the progress of the data analysis exercise that are currently underway. The inauguration of the event was graced by the Directors of UGC-DAE CSR and VECC along with the Teacher-in-Charge of the Victoria Institution (College), the Centre-Director of the Kolkata Centre of UGC-DAE CSR, the Group Head of the Physics Group at VECC, the Head of the Experimental Nuclear Physics Division, VECC and the Coordinator of the IQAC at the Victoria Institution (College). The principal component of the workshop was presentations by research scholars who are spearheading the data analysis endeavours and the talks were followed by discussions, suggestions and comments by the audience that included resource personnel and senior members of the fraternity for nuclear structure research. The research scholars represented user groups from teaching and/or research institutions across the country that have used the INGA facility at VECC along with the associated digital DAQ of the Kolkata Centre and the software resources therewith. The workshop also hosted presentations by resource personnel of the INGA setup at VECC and other accelerator centers in the country. These talks reviewed the existing infrastructure as well as described the different developments being pursued for the advancement of the INGA facility. The workshop provided platform for discussions and exchanges on the pathways ahead in the domain of nuclear structure studies using INGA, that'll facilitate its evolution into sustaining a globally competitive research programme.

The online workshop was attended by 35 participants and hosted around 20 presentations by research scholars, resource personnel of the INGA facility and other experts in the domain.

26) Extension Lecture

15.03.2022, Dept. of History and IQAC, VIC

An extension lecture was organized by the Department of History in collaboration with IQAC on 15th march, 2022 at Suniti Sabhaghar from 11 A.M. to 2 P.M.. Teacher-in-Charge Dr. Uma Ray Srinivasan and IQAC Co-ordinator Dr. Dipanwita Paul Ghosh were present on the occasion. Prof Sudipa Roy Bandyopadhyay from the Department of Ancient Indian History and Culture, University of Calcutta delivered a lecture on **‘Early Medieval temples of India: Regional variations’** Her power point presentation was very interesting as well as colorful since she showed us some rare pictures of medieval temples and explained their intricate architecture. Students thoroughly enjoyed the lecture and participated in the interactive session following the lecture.

27) Participation on State Level Seminar

15.03.2022, Dept. of Mathematics

Exploring a wide range of recent research in science specially in Mathematics, the Department of Mathematics has always been assisting their students to participate on seminars, exhibitions and workshops as well. To attend such special extension lectures on **Sage Math and Complex Analysis** 29 honours students of Semester 4 and Semester 6 attended a seminar at Lady Brabourne College, Kolkata on 15.03.2022. They were very much excited and learnt a lot from these two lectures and filled up a feedback form on that programme.

28) 5th Series of Extension Lectures for Students of Political Science & Allied Social Sciences, 2022, 21.03.2022-26.05.2022, Dept. of Political Science (financially supported by ICSSR-ERC, Kolkata)

The Department of Political Science, Victoria Institution (College) successfully completed the fifth series of Extension lectures for Students of Political Science and Allied Social Sciences (2021-2022) with financial assistance received from the Indian Council of Social Science Research – Eastern Regional Centre, Kolkata. This year, the series comprised of seven lectures beginning in March 21st 2022 and ending May 26th 2022. The issues addressed by each resource person, were so selected, that they evenly span across the honours syllabus of Political Science prescribed by the University of Calcutta. Thematically, the issues were also chosen in such a fashion so that the students get acquainted with the finer nuances of the discipline and are suitably introduced to the essential multidisciplinary nature of the subject. Since the lectures are meant to supplement the understanding of the undergraduate students, all the esteemed resource persons not only kept their lectures suited to the needs and capacity of the students but also simultaneously pushed the boundaries by invoking interdisciplinary temper, raising critical enquiries, and presenting newer discourses related to their respective themes. On an average each session saw an approximate presence of 60 students. Our resource persons were, Professor Sobhanlal Datta Gupta, Professor Dipankar Sinha, Professor Debi Chatterjee, Professor Partha Pratim Bose, Professor Anindya Jyoti Majumdar, Professor Shibashis Chatterjee and Professor Imankalyan Lahiri. This series was inaugurated by the Teacher-in-Charge of our college, Dr. Uma Ray Srinivasan.

29) Students' Seminar on 23.03.2022, Dept. of Botany

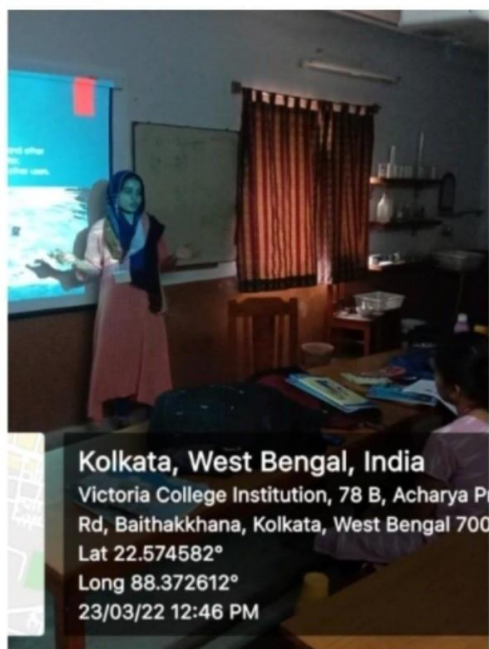

Students of Semester VI Botany Honours participated Students' Seminar on 23.03.2022 in Room No. 33 from 12.30 P.M. to 1.30 P.M. Total 4 students gave their presentation on various topics like hydroponics, waste management, water pollution etc. under the guidance of Dr. Sudip Kumar Sinha.

31) Students' Feedback in Department of Geography, 25th - 26th Mar, 2022

The Department of Geography organized a Feedback Session for the Honours students of Semester 2, 4 and 6. The feedback sessions were attended by majority of students and faculties of the department. The students of Semester 4 and 6 Honours gave their feedback on 25th March 2022 and the students of Semester 2 Honours gave their feedback on 26th March 2022. The students gave their feedback regarding the arrangement of classes in their existing departmental routine, opinion regarding completion of syllabus, availability of infrastructure in the department like tracing table, instruments, condition of blackboard etc. The students provided both positive and negative feedback in different aspects. Most of them mentioned that their classes are sparsely distributed on a few days of a week which is not convenient for them, especially for those who travel long distances. They were all very grateful to the teachers of the department of their efforts in practical classes.

Department of Commerce and IQAC, VIC
Dated – 31st March, 2022

The Department of Commerce of the Victoria Institution (College) with IQAC and Eastern India Regional Council of the Institute of Company Secretaries of India (ICSI) had arranged a seminar on UNITING TALENT WITH OPPORTUNITY on 31st March 2022 at Keshub Memorial Hall from 9A.M. to 10.30 A.M.

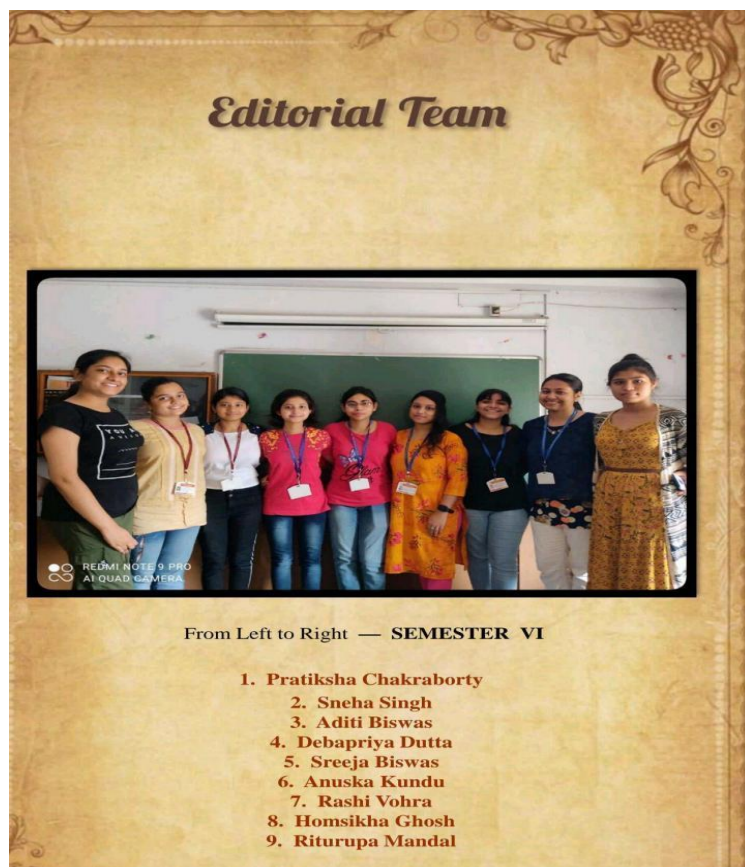

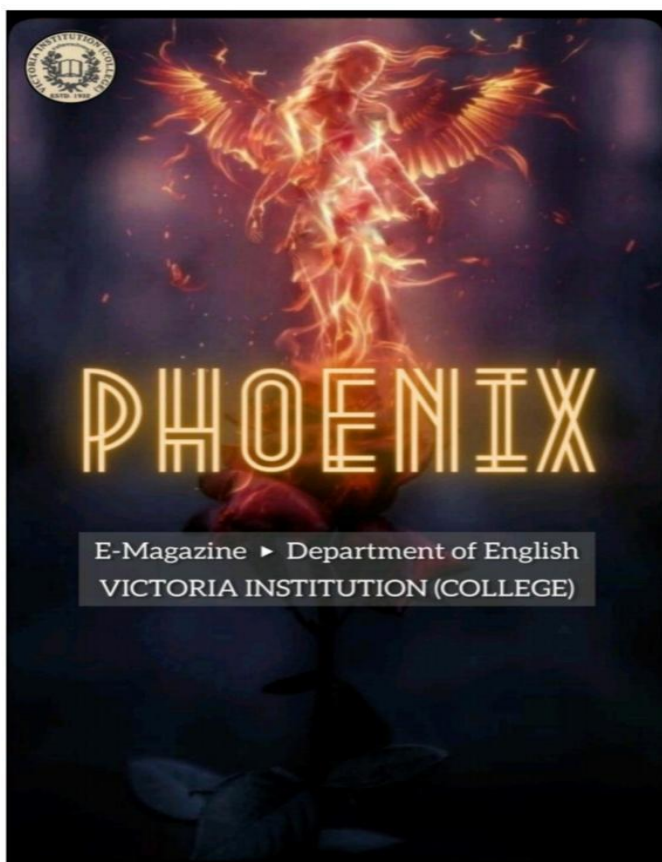

In this seminar we had eminent speaker S. Sreejesh, Assistant Director, ICSI-EIRC. He spoke about the requirement of Company Secretary in different sectors and by passing this course how the students can get more opportunities as per their qualification. It has been seen that there are many students who want to pursue some course along with graduation but they don't have the idea and guideline to do so. This seminar has been arranged to give the students an opportunity to enhance their needs towards professional field.

We received a huge response from the students as they were able to ask questions and their queries were being solved. It has also been mentioned in the seminar that post Covid also, the opportunities of talented people have not been minimized rather uplifted.

35) E- MAGAZINE Department of English : PHOENIX (01.04.2022)

This magazine attempts to encourage representation related to gender and its intersection with race, class and sexuality. It aims to provide a space to young students to celebrate the essence of womanhood through essays, poems, sketches etc. This magazine is a fruit of labour of our students, with due collaboration from the teachers of the department.

After a daylong excursion they returned their home with lots of memories.

44) Departmental Quiz Contest organized by the Dept. of Philosophy for

Semester - IV on 19.04.2022

Quiz, a contest in which participants test what they know by answering questions on one or more topics.

The objective behind to organize Quiz Competition is to evaluate the knowledge of the participants within academics as well as beyond academics and to make them familiar with the prospects of quizzes and the objectivity of the questions. They can support differentiation and provide pre-teaching indicators, assessment for learning, rich feedback, self assessment and summative information about progress. They are also a great way to help with revision. And are a fun tool to help enthuse the students to engage in their learning.

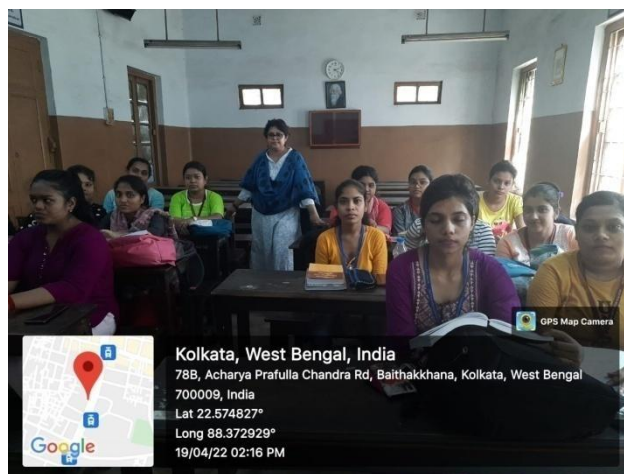

Quizzes can help identify gaps in knowledge. It is a fun way to end a lesson, while showing the teacher if there are any gaps or areas they need to cover again in more depth. Leaving the answers open ended can produce great results.

Moreover, it is an easy way to keep track of our students and have an insight into the gaps of knowledge. It gives both the teacher and the student a reflection. It shows students on what subject they have to focus.

Keeping these facts in mind we arranged for quizzes for the Semester IV and Semester VI students separately in Room No. 17 from 2 P.M. to 3 P.M. They were almost at the end of the semester. The syllabus was completed. So we could put questions from all over the syllabus.

We divided the class into two teams, Team A and Team B. They prepared themselves well and fought neck and neck. Both the teams scored almost equal in both the semesters.

We rewarded all the participants with notebooks and pens.

45) Participation on International Seminar on
20.04.2022, Dept. of Mathematics

48) Extension lecture, Department of Philosophy and IQAC., Dated: 25.04.2022.

An Extension Lecture was organized by the Department of Philosophy, in collaboration with IQAC, Victoria Institution (College) in the month of April, the 25th, 2022 at Suniti Sabhaghar from 11 A.M. to 3 P.M. The eminent professor who consented to deliver the lecture was Dr. Laxmikant Padhi, Professor and former HOD, Department of Philosophy, University of North Bengal. He presented a vast and elaborate lecture on a currently relevant issue " The Why and What in Environmental Ethics".

The key points that was discussed were as follows:

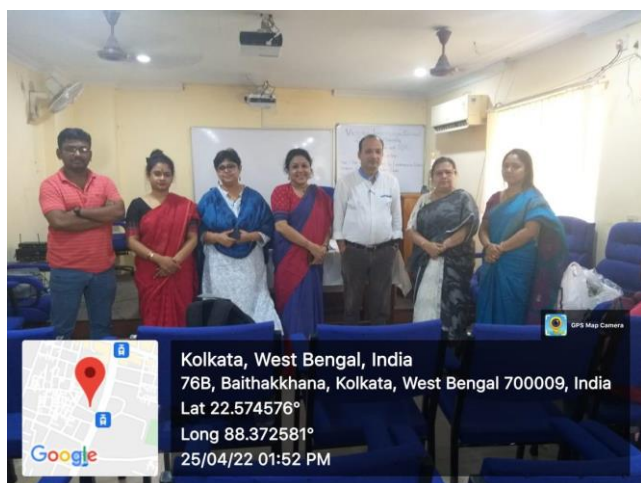

1. What is Morality and applied Ethics?, 2. What is Environmental Ethics? (EE)., 3. Why questions in EE., 4. The theories in EE., 5. A reconciliation between the theories of EE., 6. Sustainable Development., 7. Environmental Sustainability in Indian Philosophy and Culture., 8. Prakriti as feminine principal., 9. Conclusion.

Environmental Ethics applies moral thinking to the natural world and the relationship between humans and the earth. Moral reasoning is not a substitute for science, but it provides a powerful complement to scientific knowledge about the earth. Science does not teach us care. Human being owe the environment a moral obligation to conserve it as most of the environmental degradation comes from human activities. In this case, protecting the environment simply means that we are trying to protect humanity.

Dr. Padhi delivered a contemplative and cogitative as well as a delectable lecture. The lecture was lengthy but not lingering and interactive. We invited our alumni students and the auditorium was fully occupied.

We could offer our resource person a modest remuneration, a bouquet of flowers, some sweets, a few gift items and a sumptuous lunch. For the students there were a light tiffin.

The lecture session ended with promises for some more of such sessions.

54) A brief report on the Students' Presentation on "Undergraduate Physics Experiments"
Dept. of Physics, 15th May, 2022 (Online)

An Online Workshop On Undergraduate Physics Experiments was organized by the Department of Physics, Victoria Institution (College), Kolkata in Collaboration with the Indian Association of Physics Teachers, Regional Council 15 in Nov-Dec, 2021. In that workshop, some members of IAPT, RC 15 demonstrated and explained the theory behind some experiments which can be done even at home with easily available tools. Students of Semester II and Semester IV of Dept. of Physics had been provided a small kit by IAPT, RC 15 so that they can apply the knowledge they gathered in the online workshop by doing the experiments solely by themselves at home.

Student-participants showed great enthusiasm to complete experiments based on the ideas of these low-cost experiments and presented their results on May 15, 2022 through Google Meet platform in front of some of the RC-15 members of IAPT like Dr. Surajit Chakraborty, Dr. Bhupati Chakraborty, Dr. Chinmoy Kumar Ghosh, Dr. Subhas Samanta, Dr. Pradipta Panchadhyayee, Mr. Soumen Sarkar, and Mr. Sanjoy Kumar Pal. They pointed out the drawbacks / loopholes of the procedures / results (and/or) related to these experiments and gave valuable comments and suggestions to the students. They encouraged the students for further performing/developing experiments in different ways other than the conventional ways mentioned in the B. Sc. Physics Hons. curriculum. Emphasis was given on error analysis which is an integral part of testing the validity of any experimental result. This was indeed a great opportunity and exposure for our students of presenting their work in front of esteemed personalities at the undergraduate level. 16 students have participated in the above mentioned program.

60) Department of Philosophy.

Inter- Departmental Teacher Exchange Program between the Department of Philosophy and the Department of Psychology, 23rd May and 25th May, 2022

An inter departmental exchange program can be an excellent way to broaden one's experience and obtain valuable socio- cultural insights.

Some of the most common benefits of joining a teacher exchange program are:

1. A better understanding of other courses. 2. Enhanced communication skills. 3. Developing new pedagogy ideas. 4. Exposure to different syllabi and assessment methods. 5. Building an inter departmental network.

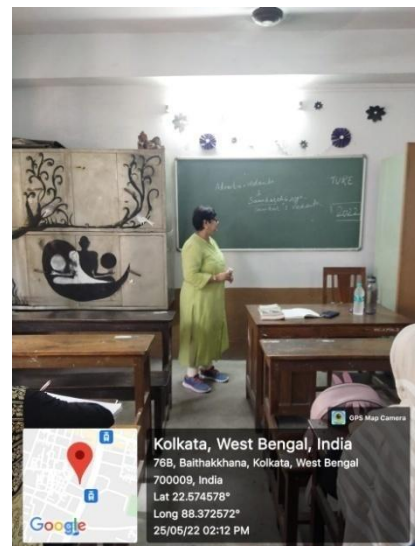

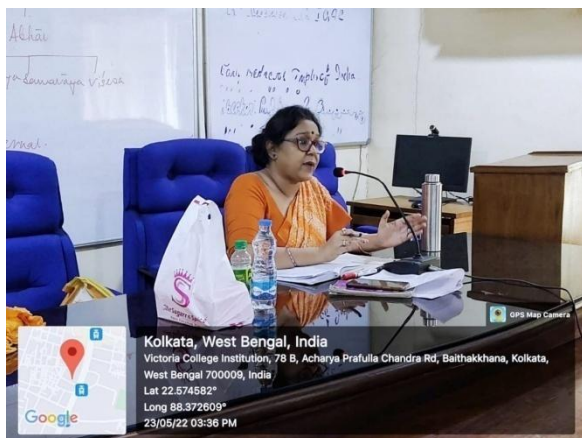

An exchange program makes one even more aware of the surroundings. It makes one adaptable by taking one out of one's comfort zone, and connects the teacher with the teachers and students of different departments.

In the month of May, two of our teachers, Dr. Kasturi Dutta and Dr. Saheli Basu took classes in the department of Psychology.

Psychology deals in Mind, or, to be precise, mental states and processes. They share the topic, Mind and Soul, as it is viewed in different Indian school of thought.

So Professor Dutta and Professor Basu lectured on Nyaya and Vedanta view of Soul. Students were attentive and engrossed. Attendance was almost cent per cent, and they were very much eager to listen to the approach of a different discipline. Even the junior teachers attended the class and it was, to some extent, interactive as we find in seminars or workshops.

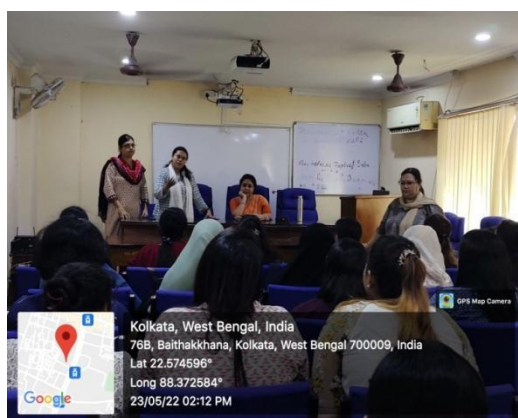

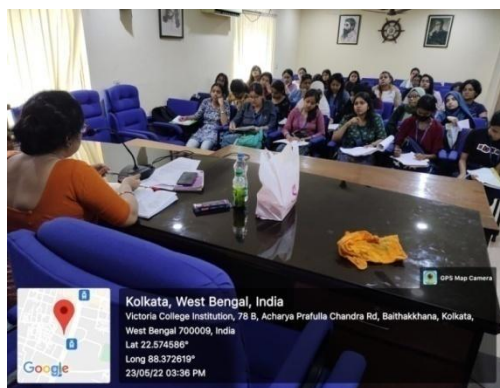

As a token of appreciation, our Professors were offered boxes of sweets.

69) Parent- Teachers' Meeting , dated 28.05.2022

Dept. of English

A Parent-Teachers' Meeting with the 2nd Semester Students was held on 28th May, 2022 in Room No. 32 from 12 Noon to 1 P.M. to discuss matters related to Students' Attendance and Performance. Owing to two consecutive years of online classes followed by a brief period of classes conducted in blended mode, the habit of physically attending classes on a regular basis was affected to a certain extent. Hence the importance of maintaining above 75% attendance from now on was highlighted during the meeting. The students had some grievances regarding the routine, which was duly addressed by the faculty. The Meeting was really effective as both sides could interact with each other freely after a long time.

70) Report on study tours arranged jointly by the Dept of Physics and Dept. of Mathematics on 28th May, 2022

Students of Mathematics Hons, Physics Hons and BSc Gen (Pure) were taken for a day long educational tour to Birla Industrial and Technological Museum (BITM) on 28th May 2022. Two teachers of the Mathematics department , Sri. Basudev Siddhya and Sri. Pramod Lama and Dr Shinjinee Das Gupta of dept. of Physics accompanied the students. The students attended special shows like High Voltage, 3D animation show on marine life, Bubble show, Coal Mine and also visited the scientific displays in different galleries. They had a brief discussion session with the personnel of BITM about the possibility of doing summer projects there and also learnt about the career opportunities offered by BITM.

20 students of Physics Honours, 19 students of Mathematics Honours. and 2 B.Sc. General (Pure) students have actively participated in the educational tour.

71) Parent-Teacher Meeting
organized by the Department of Zoology on 28.05.2022

A Parent-Teacher meeting was held in Suniti Sabhagha with the guardians of the Semester 2 Zoology (Honours) students from 12 Noon to 2 P.M. It was attended by 7 (seven) guardians and Five teachers of the department. The honourable Teacher-in-Charge of the College was also present in the meeting. Various issues pertaining to the students and the curriculum were discussed in the meeting, where the guardians were able to interact with the teachers and also share their views and opinions.

72) Publication of 2nd Volume of Departmental E-Magazine "Fizika"

Dept. of Physics , 17.06.2022

We are proud to say that this year Physics Honours students of Victoria Institution (College) have published the 2nd issue of Departmental Annual Magazine "Fizika " on 17.06.2022.

The wide spectrum of articles in different sections of physics like Uncertainty principle, Big Bang, Blackhole, Time Travel, Quantum computers etc gives us a sense of pride as they reflect the creative potential and talents of our students. Each article is thought provoking, interesting and entertaining.

We appreciate and thank everyone associated with "Fizika" for rendering their endearing love and support and hope this creation will find a place in the heart of the readers.

It is available at the college website . [<https://victoriacollege.co.in/front/activity/9>]

Editorial

Dear Reader,
Greetings to You!
The first edition of, the Department of Physics, Victoria Institution (College), e-magazine "FIZIKA" was launched in 2020-21. It is a great pleasure to bring forth the second edition of "FIZIKA" for 2021-22.
Each issue of our e-magazine "FIZIKA" has turned into a milestone that marks the students' growth and showcases our willingness to present some interesting articles for our readers.
Our e-magazine is a collection of different exciting and knowledgeable articles on different concepts like BigBang, blackhole, time travel, modern and upcoming technologies etcetera. The articles of our young writers will surely draw our reader's attention.
We extend our warm greetings and acknowledgment to all the participants for making this e-magazine wonderful and worthy for all readers to spend their valuable time.
We would like to bow our heads to all our professors for their immense support and guidance and cooperation because of which we are able to publish our second volume of "FIZIKA" successfully.
With all due respect, we offer our sincere gratitude to our Teacher-In-Charge ma'am for having faith in us.
Lastly, we would like to extend our warm greetings to the readership of our magazine and wish all the readers a joyful reading experience.

Happy reading and viewing!

9) Students as Mentors in Department 2022 **Department of Psychology on 16.03.2022**

On the occasion of Students' Week Activity students of Semester VI and IV in Department of Psychology took the classes of junior students from 14th March to 16th March, 2022 in Room No. 30. They played the role of Mentors with responsibility, taught different units from syllabus with the help of posters, models etc. The response and feedback of this effort from junior class students were positive indeed. Here are some attachments of this activity:

10) Basanta Utsav, dated 17.03.2022 Dept. of English

A beautiful cultural programme, conducted by the students of English Department to celebrate the advent of spring along with the festival of Colours, and to bid adieu to the painful memories of the pandemic at Keshub Memorial Hall on 17.03.2022 from 11.30 A.M. It was further demarcated as a ***Celebration of Inclusivity*** as the performances planned and prepared by our students, sought to give expression to the spirit of reawakening and empowerment of the marginalized and the repressed, and the sense of jubilation associated with it. The active participation from all the three semesters and the creative ingenuity of the students, their collaborative efforts in planning such an event was indeed the high point of the programme.

17) Report on Mime as Career: Workshop on Theatrical Mime organized by the Career Counselling Cell in collaboration with IQAC Cell on May 18th 2022

A one-day workshop on the elementary aspects of mime, as a career workshop was organized for the students of the college by the Career Counselling Cell in collaboration with IQAC Cell on May 18th 2022 at Keshub Memorial Hall from 1 P.M. to 5 P.M. The workshop was conducted by Soma Mime Theatre, Kolkata. The three-hour workshop was attended by forty-four students from the departments of Bengali, Commerce, English, History, Psychology and Sanskrit. The idea behind organizing a workshop of this kind was to expose students to mime, not only as an important art form /practice, but also to initiate them towards mime as a viable career option. The workshop enabled them with the elementary performative aspects of mime and they were trained by the members of Soma Mime Theatre with utmost sincerity and vigour. Participating students also exhibited similar enthusiasm during the workshop. The founder Director of this organization Smt. Soma das is an alumnus of our college as well, which added an extra dimension to the day's event. The workshop was inaugurated with the address of our Teacher-in-Charge, Dr. Uma Ray Srinivasan. Certificates issued jointly by the college and Some Mime Theatre was awarded to all the participants at the end of the day.

**18) Report on Participation of students of Dept. of Bengali in
Mime As Career, Workshop on Theatrical Mime
Organized by the Career Counselling Cell in collaboration with
IQAC, Victoria Institution (College) on 18th May, 2022**

23 students from Bengali Honours (Semester 2 and Semester 6) and General Bengali (Semester 2, Semester 6) participated in this workshop at Keshub Memorial Hall on 18.05.222 from 1 P.M. to 5 P.M.

19) Prize distribution for Students' Week and Poster Competition. 17.06.2022.

Organized by IQAC and Prize Committee.

In the first week of the year 2022, from 1st January to 7th January, there was an observance of Students' Week in all the colleges all over West Bengal, with due permission from our Honorable Chief Minister Smt. Mamata Banerjee, and by a directive from the Education Department. The Week was a celebration of cultural proficiency of the students, and it was competitive. Students from different departments took part in several extra - curricular, primarily, cultural events that took place in the competition.

Moreover, there was another competition in our college by the initiative of IQAC. That too, was a cultural competition with dance recital, singing competition, recitation, drawing, poster making, quizzes, debate, student's talk, group discussion, creative writing etc.

Competitors, who came out with flying colors were awarded in a prize distribution ceremony held on 17.06.2022 at Keshub Memorial Hall from 11 A.M. to 1.30 P.M.

It started with an inaugural Chorus and followed by a solo rendition of Raga Sangeet. Inaugural speech was delivered by our TIC, Dr. Uma Ray Srinivasan. The medals and certificates were handed over to the successful students by the senior teachers.

Such competitions and award winning ceremonies are definitely encouraging as it acknowledges the multi- dimensional abilities of the students.

2) Teachers' Day celebration by the students of second semester of 2021

Department of Bengali (Online)

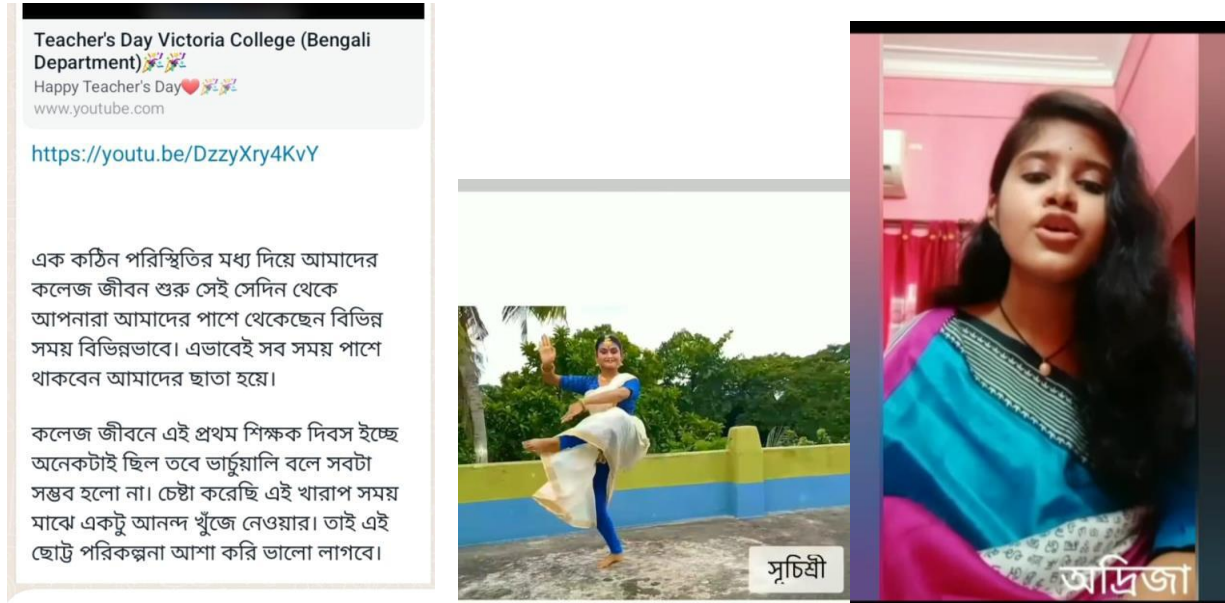

On 5th September 2021, the students of the second semester celebrated this day online from 10 a.m.

Their aim was to gift a beautiful day to teachers and students alike, from afar. They successfully delivered. During this program, there was a musical performance from Adrija Chakrabarty and Megha Dhar, recitation from Subrima Pal, Mandira Saha and Adrija Chakrabarty and dances from Pia Das, Sanchari Sihi, Sanchayita Das, Madhurima Mukherjee, Suchisree Sarkar, Ahana Mukherjee. The students edited the performances in a way that maximum students could partake in the same song or dance from different location, wherein lay the uniqueness of this event.

Jasmine Khatoon Sharmistha Bhowmik we're in charge of editing, Mandira Saha, Subrima Pal and Sweetie Kumari Patowa took over the comparing and the scripting was all done by Ria Saha. The entire program was uploaded by the students on YouTube, where it can be viewed using this link.

3) Teachers' Day celebration by outgoing students on 5th September 2021

Dept. of Bengali (Online)

The sixth semester examinations ended on 13th August, 2021. The outgoing students of this batch expressed their desire to perform on Teachers' Day online. On 5th September, a Sunday, at 7pm, six professors from the Department of Bengali, organized and celebrated the day on Google Meet. There are 46 students in this batch, almost all of whom participated in this event. On 6th September 2021, the next day, the professors of the department gifted students books and chocolates, pens as a testament to this occasion.

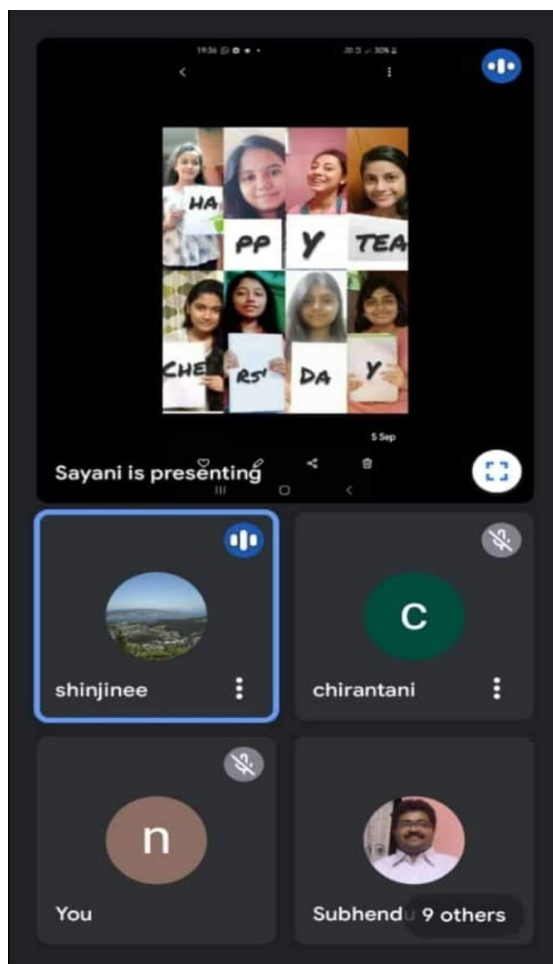

4) Teacher's Day Celebration (Online) 05.09.2021

by the students of Dept. of Physics:

In the current pandemic situation, the Teachers Day program was celebrated virtually through google meet. on 5th September 2021 at 6:30 p.m. 11 students of the department of physics attended the event. They started the program with lots of excitement and joy and made a beautiful card for this event to express their feelings. Many of them spoke on this occasion about the teachers and how they enjoyed the cordial ambience of the department. One of the students nicely sketched a group photo of all the teachers of the department and that was indeed a wonderful sketch. All the teachers appreciated the performance of the participants and the efforts put in by the students to organize such an event virtually. The program ended with a vote of thanks delivered by a student participant.

5) Teachers' Day Celebrations on 05.09.2021, Dept. of Zoology (Online)

Teachers' Day was celebrated, online, on 05.09.2021. The students of Semester 1, 3 and 5 participated enthusiastically and marked the occasion with song, dance, recitation and an online drama. Some of the beautiful collages made by them have been presented here in the report.

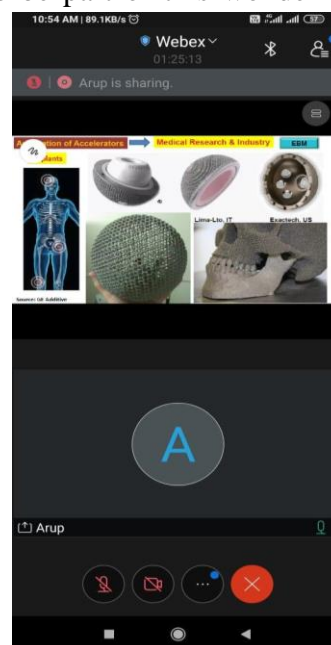

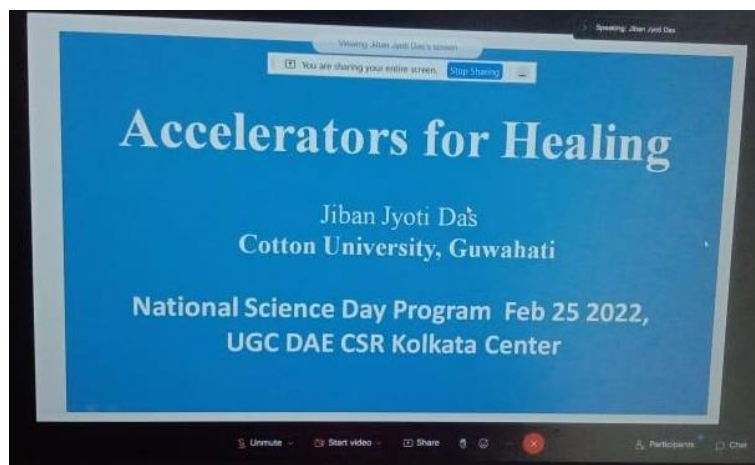

6) Brief report on the participation of the students and the faculties of the Dept. of Physics, VIC in an online event organized by the UGC-DAE Consortium, Kolkata Center (UGC-DAE-CSR, KC) to celebrate National Science Day

on 25th Feb, 2022

On 25th Feb, 2022 UGC-DAE-CSR, Kolkata Centre has organized an online event titled "**The Omnipresent Science: Radiation and Us**" in order to celebrate Science Day from 10 A.M to 4 P.M.. **16 students along with the faculties of the Dept. of Physics, Victoria Institution (College)** have participated in the above mentioned event. A series of four presentations in the field of radiation science made this event a success with the students participating actively in the interaction session. Title of the first talk was "Introduction to accelerators and their applications in everyday life" which was delivered by Dr. Arup Bandyopadhyay of VECC. Resource person of the second talk was Prof. Jibon Jyoti Das of Cotton University. He talked about the different uses of accelerators for healing. First talk of the second technical session was delivered on "X-rays Beyond Bones" by Dr. Debashis Mitra of University of Kalyani. Last presentation of the day was delivered by Dr. Abhijit Saha, Former Centre Director, UGC-DAE-CSR, Kolkata Centre. His topic was "Chemistry between Radiation and Water".

As a part of their curriculum students are studying the basics of radiation and different accelerators. This program was like an Extension lecture for our students on various aspects of Radiation Physics. They got a deeper insight about how radiation science can be used to serve the mankind. This event was beneficial to the faculties also.

We thank UGC-DAE-CSR, KC to give us the opportunity to be part of this wonderful event.

7) Exhibition on National Science Day

28.02.2022, Dept. of Mathematics

Under the guidance of one of the teachers of our department Dr. Anjana Bhattacharyya four students, Payel Das, Arunima Adhikari, Nabanita Das and Shreya Bhowmick of Semester 6 Mathematics Honours participated on “Inter-College Science Exhibition” at Vidyasagar College for Women for celebrating “National Science Day” on 28.02.2022. They demonstrate a model “Tower of Hanoi” and they were appreciated a lot by the teachers and students of that programme.

8) Brief Report on the National Webinar to Celebrate National Science Day, 2022

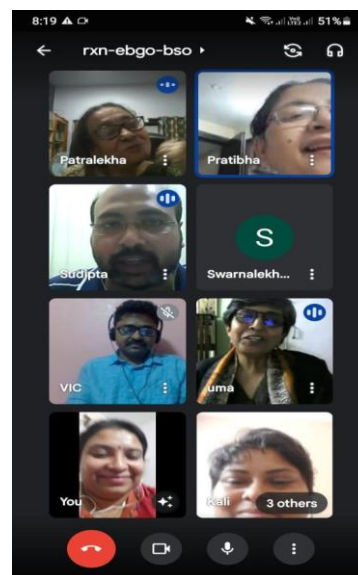

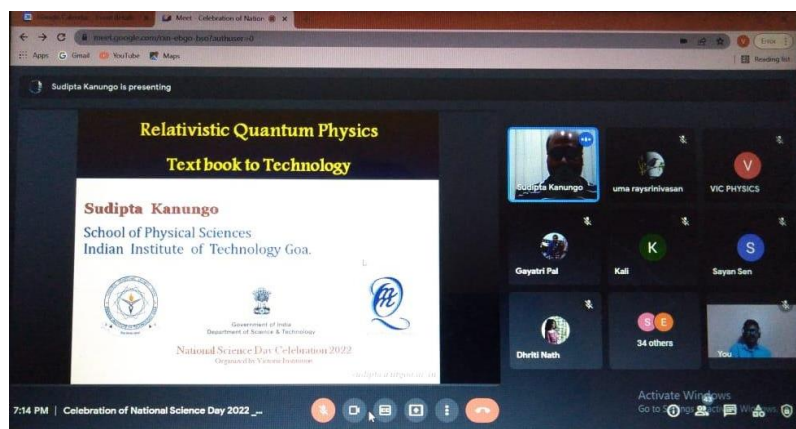

Organized by the Department of Physics in Collaboration with IQAC,

On 28th Feb, 2022

In order to observe National Science Day, 2022, Department of Physics in collaboration with IQAC, Victoria Institution (College) has arranged a National Webinar on 28th Feb, 2022 from 6 P.M. to 8 P.M. Resource person was Dr. Sudipta Kanungo, Assistant Professor, Dept. of Physics, IIT Goa, who has talked about "Relativistic Quantum Physics: Textbook to Technology". This presentation was a perfect blend between the basic theoretical physics and its application to cutting edge technologies. Moreover, the above topic was in resonance with the theme of this year's National Science Day as decided by the Ministry of Science and Technology, Govt. of India, that is "Integrated Approach in Science and Technology for a Sustainable Future".

It was really fascinating to learn how band structure of Graphene, an immensely important material used in different industries can be explained in light of the relativistic quantum physics at the Dirac points.

About 40 participants attended the webinar including both students and faculties of various College/University/Institute and they have enjoyed the wonderful and lucid presentation delivered by Dr. Kanungo. Satisfaction of the participants have also been reflected in their feedback.

9) Celebration of World Wildlife Day

11) Departmental Celebration of International Women's Day, Dept. of Philosophy

8th March, 2022.

International Women's Day is commemorated in a variety of ways worldwide. It is a public holiday in several countries, and observed socially or locally in others to celebrate and promote the achievement of women.

In order to celebrate the day, our Honours students arranged for a lecture session by themselves at Room No. 17 from 12 Noon to 2 P.M. Some of our eligible students participated in the session. Summarily, in their speeches, they imagined a gender equal world. A world free of bias, stereotypes and discrimination. A world that is diverse, equitable and inclusive. A world where difference is valued and celebrated. Together we can forge women's equality. Collectively we can all "Break The Bias" (the theme this year).

In their speeches they celebrated women's achievements in myriad fields, primarily in Indian backdrop. They talked about how to raise awareness against bias, and how to take actions for equality.

In their speeches what they harped on constantly is that the day should be powered by the collective efforts of all. Collective action and shared ownership for deriving gender parity is what makes International Women's Day impactful. Gloria Steinem, world renowned feminist, journalist and activist once explained " The story of women's struggle for equality belongs to no single feminist, not to any one organization, but to the collective efforts of all who care about human rights." So we should make International Women's Day our day and do what we truly make a positive difference for women.
